phase6 hallo-App German for adults

The language learning app for migrants
without German language knowledge

Start

LANGUAGE IS THE BASIS FOR SUCCESSFUL INTEGRATION INTO SOCIETY

The [phase6 hallo-App German for adults](#) is an initiative from [VISION EDUCATION](#), whose educational projects encourage and support learners. This project is a German language learning app designed specifically for the needs of migrants without German language knowledge. Thanks to the generous support of our sponsors, this app is available as a [free](#) download.

LIVING IN GERMANY WITHOUT GERMAN LANGUAGE KNOWLEDGE?

Migrants and refugees without German language knowledge are facing enormous challenges. The [phase6 hallo-App German for adults](#) teaches the basic vocabulary necessary for German as a second language by specifically training words that are relevant for everyday living. Audio-visual exercises provide a quick and easy access to the vocabulary, regardless of the learner's mother tongue and knowledge of the Latin alphabet.

phase6 hallo for adults

Learning German systematically and successfully.

Perceiving, understanding, speaking

Pictures and a translation feature convey the meaning whilst audio features encourage learners to practice their pronunciation.

Listening comprehension & images

Audio-visual exercises train listening comprehension and enable language learning, regardless of a lack of knowledge of the Latin alphabet.

Multiple choice

A limited set of options helps the learner find the correct answer.

Playful learning

Pairing words and pictures strengthens vocabulary retention, e.g. with Pairs, the popular memory game.

Learn to write

Pictures and gap texts provide the learners with clues for which word should be written. Learners can compare their own answer with the correct one.

Praise and reward

phase6 hallo is fun and motivates the learner through feedback, praise and rewards.

Dictionary

The dictionary enables access to all the words included in the app.

PROMOTING INTEGRATION, FOR A BETTER SOCIETY

Mastering the German language is the prerequisite for successful integration. The quicker and more efficient the learners start acquiring the language, the better we can live together in our society. Automatic, progress-dependent repetitions ensure sustainable vocabulary retention and increase the level of understanding through exercises that build upon one another and gradually become more complex. Thus, phase6 hallo opens up new opportunities for conversations, for friendships, and towards social interaction, because learning a language is the key to education and integration.

The **phase6 hallo-Apps German** are developed in cooperation with phase6. The apps are based on textbooks from publishing partners Mildenerger, a leading elementary school publisher, and Hueber, the world market leader for German as a foreign language. Thanks to the generous support of our sponsors, the apps are available as **free** downloads to all refugees and migrants. The apps encourage language education in a fast and efficient manner.

The **phase6 hallo-Apps** are available for smartphones and tablets (Android/iOS/Amazon Fire from Kindle Fire 2012). They can run without an internet connection after being downloaded and installed.
