

VISION EDUCATION
phase6 hallo app
German for children

LANGUAGE COMPETENCE AND
EDUCATION ARE THE BASIS FOR EFFICIENT
AND SUCCESSFUL INTEGRATION

The app **phase6 hallo German for children** is an initiative by **VISION EDUCATION**. The German language learning app is designed specifically for the needs of children. Thanks to the support of our sponsors, the app is available to be downloaded and used **free** of charge.

PROMOTE INTEGRATION WITH phase6 hallo

Mastering the German language is a prerequisite for successful integration. The quicker and more efficient children start acquiring the language, the faster their transition from special language learning courses to regular classes.

The app **phase6 hallo German for children** significantly contributes to this process. Structured repetitions promote the acquisition of German vocabulary, while the target-group-specific design attracts and motivates learners. The app facilitates building a basic vocabulary of German. Around 1,400 words and expressions from various topics can be trained in a fun way.

phase6 hallo German for children opens doors: to regular school life, to friendships, to social interaction.

**phase6 hallo app
German for children:**
the fun way to learn German!

VISION EDUCATION

2

Playful learning

Pairing words and pictures strengthens vocabulary retention, e.g. with Pairs, the popular memory game.

3

Multiple choice

A limited set of options helps the learner find the correct answer.

4

Hyphenation tool

Optionally usable syllabification method by Mildeberger: By colour marking the syllables, the construction of words is clearer and learning to read becomes easier.

5

Listening comprehension

Exercises involving audio recordings of the words promote listening comprehension.

6

Writing practice

Unambiguous pictures visualise which word is to be written. Learners can compare their own answer with the correct one.

7

Praise and reward

phase6 hallo is fun. The children are able to observe their own learning process whilst having fun.

The apps **phase6 hallo German** are developed in cooperation with phase6. The apps are based on textbooks from publishing partners Mildenerger, a leading elementary school publisher, and Hueber, the world market leader for German as a foreign language. Thanks to the support of our sponsors, the apps are available as **free** downloads to all refugees and migrants. The apps encourage language education in a fast and efficient manner.

The **phase6 hallo** apps are available for smartphones and tablets (Android/iOS/Amazon Fire from Kindle Fire 2012) and can **run offline**. The apps enable learners to build a core vocabulary of the German language, both independently or with the assistance of a teacher.
